

Announcement of Call for 2022 Joseph Altman Award in Developmental Neuroscience

This announcement is information regarding the 2022 Joseph Altman Award in Developmental Neuroscience. The Award was established with a fund donated to the Japan Neuroscience Society (JNS) by Dr. Shirley A. Bayer, a widow and long-term collaborator of late Dr. Joseph Altman. Dr. Joseph Altman, who discovered neurogenesis in the adult mammalian brain, received the International Prize for Biology from His Majesty the Emperor of Japan. Accordingly, the Award is to recognize up-and-coming researchers who have made remarkable achievements in the field of developmental neuroscience.

The JNS is now announcing the call for nominations for the 6th (2022) Joseph Altman Award. The JNS will accept applications from all over the world. Please refer to the page below of the JNS website for further details about the application procedure.
